HISTORICAL INFORMATION

ESTABLISHED

The Dayton National Cemetery was originally established as the permanent burial site for residents of the Central Branch of the National Asylum for Disabled Volunteer Soldiers on April 11, 1867. The first interment was on September 11, 1867, Corporal Cornelius Solly, Co. I, 104th Pennsylvania Infantry, in Section A, Row 12, Grave 25.

THE CENTRAL BRANCH

In 1862 the U.S. Sanitary Commission proposed that a national home be established for soldiers who had served their country during times of war. On March 3, 1865, Congress passed an act establishing a National Asylum for Disabled Volunteer Soldiers. It was one of the last bills signed by President Lincoln. The law provided for a corporation of one hundred men, named in the act, to build and administer such an asylum. After five unsuccessful attempts to establish a quorum, the law was amended on March 21, 1866, establishing a Board of Managers consisting of 12 men. Nine were to be elected and the other three--the President, Chief Justice of the Supreme Court and the Secretary of War--were to serve ex-officio.

The first asylum authorized by the Board of Managers was the Eastern Branch at Togus, Maine on September 6, 1866. The second at Milwaukee, Wisconsin on December 7, 1866, and the Home at Dayton, Ohio was authorized on April 11, 1867.

Located at Camp Chase in Columbus, Ohio was the Tripler Military Hospital and the Camp Chase Confederate Stockade and Cemetery. The Tripler Military Hospital was a federal gift to Ohio. It was given back and the buildings there, approximately 3,500,000 ft. of lumber and $6,169.62 in cash became available to the managers of the Central Branch. The buildings were dismantled and transported along with the occupants of the hospital, 450 war veterans, in September 1867, to the National Home at Dayton.

SOLDIERS' MONUMENT

On the highest ground within the cemetery stands the Soldiers' Monument. It was first proposed by the Monumental and Historical Association, formed by the veterans of the home, to perpetuate the memory of those buried at the cemetery. The Association proposed, and with the aid of the soldiers of the home, raised all funds for the project, except $2,000 donated by the federal government to complete the project in 1877. The cornerstone of the monument was laid on July 4, 1877, and covers a time capsule containing the Bible, Constitution of the United States, photographs, coins, muster-roll of officers and men of the National Home, major newspapers from ten cities, and other historical memorabilia. The pillar, one of the colonnades from the U.S. Bank of Philadelphia was given as a gift to the State of Ohio from the government. Atop the pillar stands a volunteer on gaurd surrounded by four statues representing the Infantry, the Cavalry, the Artillery and the Navy. President Rutherford B. Hayes delivered the dedication address and unveiled the monument on September 12, 1877, with about 20,000 visitors attending the ceremonies.

MEMORIAL CARILLON

Located near the Soldiers' Monument stands the Carillon Tower donated by the AMVETS organization and dedicated on November 6, 1985. The carillon bells toll daily on the hour and on the half hour play a hymn in memory of all veterans. The carillon also provides Taps for every veteran service conducted at the cemetery.

CHAPLAIN WILLIAM EARNSHAW

Although not buried at the Dayton National Cemetery, his influence on this, as well as other national cemeteries, notes special mention. Chaplain Earnshaw marched with the first occupants of the National Home from Camp Chase arriving on September 7, 1867. He served as Chaplain of the Home until his death, July 17, 1885. He is responsible for locating and establishing the cemetery grounds at the site of the home.

He entered the Army at the break out of the Civil War and was commissioned early as a Chaplain. He served in the Army of the Potomac until after the battle at Gettysburg when he was assigned to the Army of the Cumberland under General George H. Thomas. During his service under General Thomas he was appointed as Superintendent at Stone River and Nashville Cemeteries where he gathered and interred the remains of 22,000 soldiers. He was subsequently appointed with two other officers to select sites and purchase the ground for the national cemeteries at Ft. Donelson, Shiloh, Corinth, and Memphis.

EMMA MILLER

(Civilian Section, Row 3, Grave 2)

Mrs. Miller's background remains a mystery. The family story goes that the Millers were living in Chicago and had made a decision to move to Cleveland. Whether Mr. Miller left the family to join the Civil War effort, or whether he simply abandoned them, the fact remains that Mrs. Miller went to Cleveland alone with her three children. While in Cleveland, Mrs. Miller became active with the Cleveland Sanitary Commission, raising funds for medical supplies and other necessities for the soldiers on the front lines. Late in the war, Mrs. Miller shifted her interests and was the nurse to approximately 17 wounded soldiers, then in a hospital in Cleveland. When the state of Ohio opened the Camp Chase facility for wounded and disabled Ohio veterans, Mrs. Miller accompanied these 17 veterans and continued to nurse them while in Columbus. When the decision was made to bring the veterans to the Central Branch of the N.H.D.V.S., Mrs. Miller again prepared for the trip. She, along with 450 other veterans from Camp Chase were among the first to live on these grounds. Mrs. Miller continued to live on these grounds, serving the veterans, until her death on January 18, 1914.

Dayton National Cemetery is the honored burial grounds for veterans of nearly every war and armed conflict that has befallen this great country. Many brave men and women now lie here unable to tell their stories of sacrifice and dedication. Following are some that have achieved special recognition for their heroic deeds, special assignments or the nature of their civilian lives.
